FRESENIUS MEDICAL CARE

December 2026

MEDICAL Education

WEBINAR SERIES

Your source for dialysis education

Our comprehensive Medical Education programs are delivered by experts in their fields and cover a variety of product training and disease-state education topics related to dialysis and critical care. Presented by the Global Medical Information & Education Group from the Fresenius Medical Care Global Medical Office.

Disease State Presentations

- Good Nutritional Practices for Hemodialysis (HD) Patients
- Tidal Therapy in Peritoneal Dialysis (PD)
- **SPOTLIGHT:** Citrate: CKRT in Clinical Practice - What Residents Should be Aware Of
- Incremental PD
- Using Peritoneal Dialysis (PD) Modeling to Individualize the PD Prescription
- Hyperphosphatemia and Mineral Bone Disease: Understanding the Link and Effective Management
- Home Hemodialysis (HHD) Part 1: Current Trends, Prescriptions, and General Considerations
- Understanding and Applying the PET
- **SPOTLIGHT:** Optimizing Dialysis Care: Transitions from Peritoneal Dialysis to Hemodialysis
- Diabetic Kidney Disease and Use of Sodium Glucose Transporter 2 Inhibitors (SGLT-2i)
- CAPD vs APD: The Right Prescription, for the Right Patient, at the Right Time

Product Training Presentations

- 2008T BlueStar™ Alarm Troubleshooting and Emergency Rinseback
- Relative Blood Volume Monitoring for ESKD Fluid Management
